****Please note: This message will likely be of greatest interest to those involved with the preparation and development of your states' integrated 303(d)/305(b) report****

To: TMDL/Watersheds Committee and Monitoring, Standards & Assessment Committee

EPA is initiating the process is initiating the process to develop the memo on information to assist States and others in the preparation and review of the 2016 Integrated Reports (IR), in accordance with Clean Water Act (CWA) Sections 303(d), 305(b), and 314. EPA's goal is to release the final IR memo by the end of the calendar year and well in advance of States drafting their 2016 IR submittals. At this early stage in the process, EPA is interested in hearing from States on the topics they would like to see considered for inclusion in the 2016 IR memo. EPA is particularly interested in topics that fall into either of the following two categories: (a) existing IR guidance is unclear, or (b) existing IR guidance does not address the issue.

Further background and direction on submitting topics for consideration in the 2016 Integrated Reporting Memo are provided in the handout linked here:

http://image.exct.net/lib/fe651570766002797017/m/1/Info+on+Submitting+Topics_2016+IR+Memo+Developm

Those interested in providing input should submit information to Shera Reems at (reems.shera@epa.gov) and Susan Kirsch (<mailto:skirsch@acwa-us.org>) in the format described in the handout by COB July 1.

If any of the States have questions on the IR timeline set forth in the handout, how to fill out the template, or issues addressed in previous IR memos, please contact Eric Monschein or Shera Reems in the Watershed Branch at 202.566.1547.

Thanks in advance for your input.
